## 10: UAS COA Preparation

### **Course Overview**

For Public Operators seeking to operate unmanned aircraft systems, authorization must be approved by the FAA through issuance of a Certificate of Waiver/Authorization (COA). This course is available as online video training (approx 30 minutes ) or on-site presentation.

#### **This course will cover the following topics:**

Preparing documents for the Public COA application, the application process, flight aircrew qualifications, what COA(s) are right for a specific agency, training considerations, emergency COA, related FAA regulations, emergency procedures, contracting civil operators for public operations.

### **Course Objective**

To assist the Public Agency in preparing the documentation necessary for application for a Certificate of Waiver/Authorization (COA) for small UAV (multi-rotor and fixed wing).

## Required Material

FAR/AIM

## Additional Class Requirements:

None

## ADDITIONAL CLASSROOM MATERIAL
